Donor Services**

Organ and Tissue Donation

Thank you for volunteering with New England Donor Services. Volunteers are vital to our public education efforts and we appreciate your participation. Many volunteers have a personal story connected with donation, sharing your story will start conversations and help inspire others to consider donation. Volunteers have the opportunity to register new donors by signing people up at events or directing them to the donor registry.

We also welcome your ideas and encourage you to seek opportunities!

You will receive notice about events, meetings and conference calls via email, and visit our social media sites often.

Our emails sometimes land in JUNK/SPAM folders, please keep an eye out for communication and check us as a secure sender.

We will send you a Volunteer packet, you can also find resources on our Volunteer Page on our website, www.neds.org.

OPPORTUNITIES:

To share your story

To help register people as organ & tissue donors

GETTING STARTED:

Fill out Volunteer Application, Image Release and Confidentiality forms.

Schedule your Volunteer Orientation.

Tell us about you, write your donation story or bio, why donation is important to you.

Join our Volunteer Group: www.facebook.com/groups/DLNEvolunteers/.

Start promoting donation today! Set up a table or speaking engagement in your community; or promote donation online by adding a tagline to your email signature or post on social media.

WELCOME TO OUR TEAM!
